Customizable Excellence

Psychology is the scientific study of thoughts, feelings, behavior, and so much more. The Psychology major at St. Andrews follows the guidelines of the American Psychological Association, which ensure that our graduates have a robust background in many areas of psychology and the sciences within those areas. Our small student to faculty ratio provides each student with a customized experience tailored to fit their future plans, whether that may be immediate employment after college or further education in graduate/professional school. We encourage students to pursue their own interests within the field by taking specialized upper level classes and gaining hands-on experience with guided independent research and community internships. The Psychology program offers a Psychology Club as well as membership in Psi Chi, The International Honor Society in Psychology.

Join us as you pursue your dreams. Our graduates have advanced into many fields, including counseling, coaching, law enforcement, law school, business and sales, marketing, and higher education.
