

NOTICE TO PROSPECTIVE STUDENTS

Applying for the Bachelor of Science Degree **With a Major in Occupational Therapy Assisting and a Minor in Health Services Administration**

St. Andrews University, *a branch of Webber International University*, is currently processing applicants for the Bachelor of Science in Occupational Therapy Assisting with a minor in Health Services Administration program (BSOTA with a minor in HSA).

St. Andrews is seeking candidacy for accreditation for the BSOTA with a minor in HSA program by the Accreditation Council for Occupational Therapy Education (ACOTE); PO Box 31220, Bethesda, MD 20824-1220; (301) 652-2682. The academic faculty and leadership at the university are in the process of collecting and compiling data to submit for accreditation. The accreditation process may take up to two years; however, completion of the accreditation process does not guarantee that the BSOTA with a minor in HSA program will be granted accreditation status.

Students must graduate from an ACOTE accredited university to be eligible to sit for the National Board for Certification in Occupational Therapy (NBCOT) exam which must be passed to obtain state licensure as an Occupational Therapy Assistant. Should the program not receive accreditation, graduates would not be able to sit for the NBCOT boards or obtain state licensure. If the program attains ACOTE accreditation status prior to graduation, graduates will be eligible to sit for the NBCOT® Certification exam immediately upon graduation from the BSOTA with a minor in HSA program.

I have read and understand the implication of the above disclosure. My questions have been answered to my satisfaction.
